

## Introducing the Printhead Protection Program

### Don't Miss Out on Free Printheads with Zebra's Brand-New Printhead Program

The single, most costly consumable on your Zebra Printer, is the printhead. The printhead is the vital component that ensures clear, crisp printing of text and barcodes. Looked after properly you can maximise their lifespan. But unfortunately even the most cared for printheads can run into problems, particularly if you're printing high volumes of labels. When printheads suffer you can have mis-scans and illegible human readable character. But more importantly, these issues can cost your business time and money.

That's why we're introducing ***Zebra's Printhead Protection Program*** - offering customers like yourself, FREE printheads for life.\*

By committing to Zebra Certified Supplies, you're entitled to enroll in Zebra's program and your business can benefit from free replacement printheads.

And by using Zebra Certified Supplies, you're **reducing downtime, achieving consistent print quality and ensuring you are giving your printers longevity.**

As a result, your operations can remain steady and running and you eliminate the unavoidable cost of replacement printheads.

Printhead wear increases with inferior supplies and if you're not investing in the correct supplies, your printer suffers, and therefore so does your business.

#### Program Benefits Include:

- **Reduced Downtime**
- **Cuts Printhead Cost**
- **One Source Printing Solution**
- **Simple Enrollment and Redemption**
- **No Need to Ship Printers Back**

Commit to Zebra Certified Supplies today, so you can eliminate the cost of printheads and enroll into Zebra's brand-new Printhead Protection Program.
